## OVSS Asmita college of law policy for Energy Uses and conservation

### Objective of policy

Asmita Law College recognizes the importance of sustainable energy practices in reducing our environmental footprint and promoting a healthier campus environment. In alignment with our commitment to sustainability and innovation, this policy outlines guidelines for the use of solar energy, sensor-based equipment, LED bulbs, and power-efficient devices across our Asmita law college campus.

### Policy Formation and Implementation:

Asmita Law College will establish a dedicated Energy Management Committee responsible for overseeing the implementation of this policy and monitoring progress towards energy conservation goals. The committee will consist of representatives from administration, faculty, students, and facilities management.

### Key responsibilities of the Energy Management Committee include:

Developing and updating energy conservation strategies and initiatives in consultation with relevant stakeholders.

Conducting regular energy audits and performance evaluations to assess the effectiveness of energy-saving measures.

Providing training and awareness programs to educate campus community members about the importance of energy conservation and sustainable practices.

Collaborating with external partners, energy experts, and government agencies to explore opportunities for funding, grants, and incentives to support renewable energy projects and energy-efficient initiatives.

### 1. Solar Energy Integration:

Asmita Law College will strive to maximize the utilization of solar energy to meet our energy needs sustainably. This includes:

Installation of solar panels on suitable rooftops and open spaces to generate clean and renewable electricity.

Integration of solar-powered street lights and outdoor lighting fixtures to reduce reliance on conventional energy sources.

  
Incharge Principal  
ASMITA COLLEGE OF LAW  
Affiliated to the University Of Mumbai  
Vikhroli (East), Mumbai-83.

Asmita College Chowk, Kannamwar Nagar 2, Vikhroli(E), Mumbai 400 083

Regular maintenance and monitoring of solar infrastructure to ensure optimal performance and longevity.

## 2. Sensor-Based Equipment:

To enhance energy efficiency and optimize resource utilization, Asmita Law College will deploy sensor-based equipment and smart technologies across campus. This includes:

Installation of occupancy sensors in common areas to control lighting and HVAC systems based on occupancy levels.

Integration of automated irrigation systems with soil moisture sensors to optimize water usage in landscaping and green spaces.

## 3. LED Bulbs and Power-Efficient Equipment:

As part of our commitment to energy efficiency, Asmita Law College will prioritize the use of LED bulbs and power-efficient equipment throughout campus. This includes:

Replacement of traditional incandescent and fluorescent bulbs with energy-efficient LED lighting fixtures in classrooms, corridors, and administrative buildings.

Procurement of energy-star rated appliances and equipment, such as computers, printers, and HVAC systems, to minimize energy consumption and operational costs.

Implementation of energy management policies and guidelines to encourage responsible use of electrical devices and equipment among faculty, staff, and students.

By adopting this comprehensive energy use and conservation policy, Asmita Law College aims to demonstrate leadership in sustainable campus management and contribute to the global effort to combat climate change. Through collective action and continuous improvement, we are committed to reducing our carbon footprint, conserving natural resources, and creating a greener and more resilient campus environment for generations to come.

This policy document provides a framework for promoting energy efficiency and sustainability at Asmita Law College, aligning with best practices and industry standards in the field of renewable energy and environmental stewardship.
