OVSS Asmita College of Law Policy Document on Environment and Energy Use

Asmita College of Law recognizes the importance of environmental sustainability and energy conservation in fostering a healthy and thriving planet. This policy document outlines the college's commitment to promoting environmental awareness and sustainability both within its campus and in the broader community. In addition to energy conservation measures, the college actively engages in environmental promotion and sustainability activities, particularly through tree plantation drives under the Mission Madhuvan Scheme.

Environmental Commitment:

Asmita College of Law is dedicated to protecting and preserving the environment through proactive measures and initiatives. The college recognizes the urgent need to address environmental challenges such as climate change, pollution, and biodiversity loss. To this end, the college pledges to:

Promote Environmental Awareness: The College will integrate environmental education and awareness into its curriculum and extracurricular activities to cultivate a culture of environmental responsibility among students, faculty, and staff.

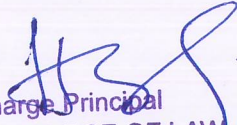

Reduce Environmental Impact: Asmita College of Law will strive to minimize its environmental footprint by implementing sustainable practices in waste management, water conservation, and resource utilization.

Enhance Biodiversity: The College will undertake initiatives to enhance biodiversity both within its campus and in surrounding areas. This includes tree plantation drives and biodiversity conservation efforts.

Energy Conservation:

Asmita College of Law acknowledges the importance of energy conservation in mitigating climate change and reducing environmental degradation. The college is committed to optimizing energy use and promoting renewable energy sources to minimize its carbon footprint. Our energy conservation strategies include:

Asmita College Chowk, Kannamwar Nagar 2, Vikhroli(E), Mumbai 400 083

Energy Audits: The College will conduct regular energy audits to assess its energy consumption patterns, identify areas of inefficiency, and implement measures to reduce energy waste.

Energy Efficiency: Asmita College of Law will prioritize energy-efficient technologies and practices in its campus operations, including building design, lighting systems, heating, ventilation, and air conditioning (HVAC) systems, and equipment upgrades.

Renewable Energy Adoption: The College will explore opportunities to increase the use of renewable energy sources such as solar. This may include installing solar panels, utilizing, or purchasing renewable energy credits Like led bulbs etc.

Behavioral Change: The College will promote energy conservation awareness and encourage behavior change among students, faculty, and staff. This may involve campaigns, workshops, and incentives to encourage energy-saving habits and practices.

Beyond Campus Initiatives:

Mission Madhuvan Scheme:

Asmita College of Law has initiated the Mission Madhuvan Scheme as part of its commitment to environmental promotion and sustainability. Under this scheme, the college organizes regular tree plantation drives aimed at increasing green cover and enhancing biodiversity in the surrounding areas. The Mission Madhuvan Scheme is aligned with the broader goals of national and global initiatives to combat climate change and environmental degradation.

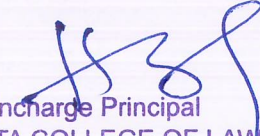

The tree plantation drives organized by the college serve multiple purposes, including:

Carbon Sequestration: Trees play a crucial role in sequestering carbon dioxide from the atmosphere, thereby mitigating the effects of climate change. By planting trees, Asmita College of Law contributes to carbon offsetting efforts and helps reduce greenhouse gas emissions.

Biodiversity Conservation: Trees provide habitats for various species of plants, contributing to biodiversity conservation. The tree plantation drives conducted by the college aim to create green corridors and promoting ecological balance.

Campus Beautification and Green Spaces:

Asmita College Chowk, Kannamwar Nagar 2, Vikhroli(E), Mumbai 400 083

In addition to tree plantation drives, Asmita College of Law prioritizes campus beautification and the creation of green spaces. The college maintains gardens and landscaped areas within its campus, providing aesthetic value and recreational opportunities for the college community. Green spaces not only enhance the visual appeal of the campus but also contribute to air quality improvement, noise reduction, and overall well-being.

Moreover, the college encourages sustainable landscaping practices, such as native plant gardening, rainwater harvesting and organic gardening techniques. These practices minimize water consumption, reduce the use of chemical fertilizers and pesticides, and support local biodiversity.

Environmental Awareness and Education:

As part of its broader environmental promotion efforts, Asmita College of Law emphasizes environmental awareness and education among its students, faculty, and staff. The college organizes seminars, workshops, and awareness campaigns on environmental issues such as climate change, pollution, waste management, and biodiversity conservation.

Furthermore, the college integrates environmental topics into its academic curriculum across various disciplines, including Environmental law, By incorporating environmental education into its teaching and learning activities, Asmita College of Law equips its students with the knowledge, skills, and values necessary to become environmentally responsible citizens and leaders.

The Mission Madhuvan Scheme provides opportunities for students, faculty, and staff to learn about the importance of trees and forests in environmental sustainability. Through hands-on participation in tree plantation activities, participants gain practical knowledge and awareness about environmental issues.

Asmita College of Law is committed to being a leader in environmental stewardship and energy conservation. Through this policy, the college reaffirms its dedication to promoting sustainable practices, reducing its environmental impact, and fostering a culture of environmental responsibility within its campus community and beyond. By working together towards these shared goals, we can create a healthier, more sustainable future for generations to come.

ASMITA COLLEGE OF LAW

Affiliated to the University of Mumbai and Approved by the Bar Council of India

MISSION MADHUVAN 2021

DATE: 05TH JUNE'2021 | TIME: 7.00 PM TO TO 9.00 PM | MODE OF CONDUCTION: ONLINE

SPEAKER: DR. ABHISHEK ATREY (ADVOCATE SUPREME COURT OF INDIA) | MR. MRITYUNJAY KUWAR (WILD LIFE EXPERT)

THE OBJECTIVE:

The goal of environmental education is to create environmentally literate citizens who can compete in the global economy, who have the abilities, knowledge, and motivation to make wise decisions regarding the environment, and who can exercise their rights and responsibilities as community members. Understanding and appreciating their own environment's natural and cultural resources, as well as society, technology, and productivity, are all aided by having an awareness of environmental issues. Environmental education aims to raise public awareness of environmental issues, investigate potential solutions, and establish the groundwork for an individual's fully informed and active participation in environmental protection and the wise and responsible use of natural resources.

As early as 1930, the Indian education system included various environmental elements in its curricula. Additionally, the Kothari panel (1964–1966) recommended that EE be included in basic education and connected to the needs and goals of the people and the country.

"The aims of teaching science in the primary schools should be to develop proper understanding of the main facts, concepts, principles and processes in the physical and biological environment," the report said for the primary level. Different approaches were taken to environmental education at the primary, secondary, and upper secondary levels.

Every student's education must include environmental education. It contributes to the promotion of environmental consciousness, which breeds knowledgeable concern and motivates proactive involvement in the solution of environmental issues.

MISSION MADHUVAN 2021

One of its kind programme runned by the Asmita College of Law. Unders this programme, which is part of our "World Environment Day" Celebration, We encourage our students to participate in environment preservation activity.

We embarked on this mission since year 2021. As due to the sad demise of our founder Late. Shri. Madhukar Narvekar Sir, we decided to pay homage to this great soul the perect tribute will be to contribute to environment & give back to the society- which have been the life mantra of our founder alte Narvekar Sir.

Inder Mission Madhuban, apart from the regular lectures, we seek active, on ground & practicle participation from all our students, staff & management. Each student of Asmita college of Law plants a tree with a pledge to take care of it & help it grown into a tree.

A legacy which we intend to handover to our next generation. A noble & uniqe programme running successfully.

MISSION MADHUVAN 2022

DATE: 07TH JUNE 2022 | TIME: 7.00 PM TO TO 8.00 PM | MODE OF CONDUCTION: ONLINE | VENUE: ZOOM PLATFORM

SPEAKER: MANISHA PRADHAN

(CHIEF ENVIRONMENTAL OFFICER - THANE MUNICIPAL CORPORATION-MAHARASHTRA)

THE OBJECTIVE

Environmental education is a process that aims at the development of environmentally literate citizens who can compete in global economy, who have the skills and knowledge and inclinations to make well informed choices concerning the environment, and who exercise the rights and responsibilities of the members of a community. Environmental knowledge contributes to an understanding and appreciation of the society, technology and productivity and conservation of natural and cultural resources of their own environment. The objectives of environmental education is to increase public awareness about environmental issues, explore possible solutions, and to lay the foundations for a fully informed and active participation of individual in the protection of environment and the prudent and rational use of natural resources.

The education system in India had incorporated certain aspects of environment in school curricula as early as 1930. The Kothari commission (1964-66) also suggested that basic education had to offer EE and relate it to the life needs and aspirations of the people and the nation. At the primary stage, the report recommended that " the aims of teaching science in the primary schools should be to develop proper understanding of the main facts, concepts, principles and processes in physical and biological environment" Environmental education at primary, secondary, higher secondary levels was treated in a different way. Environmental education is an essential part of every pupil's learning. It helps to encourage awareness of the environment, leading to informed concern for active participation in resolving environmental problems.

Our Inspiration: Late Shri. Madhukar Narayankar Sir

MISSION MADHUVAN 2022

This is the quest we have been on since 2021. Due to the tragic death of our founder, Late Shri. Madhukar Narvekar Sir, we have chosen to honour this wonderful man. The perfect tribute will be to support the environment and give back to society, as these were our founder Late Shri. Narvekar Sir's guiding principles in life.

A unique curriculum administered by the Asmita College of Law. We encourage our students to take part in environmental preservation activities as part of this program, which is also a part of our celebration of "World Environment Day."

Apart from the scheduled lectures, all of our students, staff, and management are expected to actively participate in Mission Madhuvan through hands-on learning and practical experience. Every Asmita College of Law student plants a tree and pledge to care for it and support its growth into a tree. A legacy that we hope to pass on to the following generation. A great and distinctive program that is well implemented.
